FINANCIAL TECHNOLOGY SANDBOX LICENSE  
BI-ANNUAL REPORT FIELD DEFINITIONS

Last Update: 2/21/2022

The purpose of this document is to define the data entry fields in the Financial Technology Sandbox (“FTS”) License Bi-Annual Report, a required report as per Section 559.952(8), Florida Statute.

This Report is due no later than 45 days after the conclusion of each 180-day period (Rule 69V-559.201(1), F.A.C.)

This document will discuss four sections of the Bi-Annual Report:

- Reporting Period which calls for the licensee to define the 180-day period;
- Section A which calls for information regarding consumer service levels;
- Section B which calls for financial information;
- Section C which calls for transaction volume information.

### **Reporting Period**

The Reporting Period screen requires the user to enter the period upon which the licensee is reporting. Pursuant to Rule 69V-559.201(1), F.A.C., this period should be a 180-day period and those periods should be consistent with no breaks in time periods which are reported.

For example, if a Licensee was licensed on March 31, 2021, its first report would be for the period of March 31, 2021 to September 27, 2021 while its second report would be for the period September 28, 2021 to March 27, 2022.

### **Section A**

Section A of the Bi-Annual Report must be completed by Licensees offering a Chapter 516 product/service. All information should be specific to Florida consumer transactions

*See page 2 of this document for guidance on the information desired in each field of this section.*

Generally, all numbers reported in this section should be represented as positive numbers. If the Licensee does not offer any such products/services, the Licensee should enter zeroes (0) in all fields for Section A.

### **Section B**

Section B of the Report requires the licensee to provide interim-period financial information. Section B is broken up into three separate sections: Assets; Liabilities and Equity; and the Income Statement. This section should be completed by all FTS Licensees.

This information should be presented company-wide and should be the same entity used for the annual financial audit report requirement. For example, if the parent company’s financial statements are utilized to satisfy the financial audit report requirement, the licensee should present that parent’s interim period information in this report; conversely, if the licensed entity is used for that report requirement, the licensee should report that entity in Section B.

*See page 3 of this document for guidance on the information desired in each field of this section.*

Most amounts reported in this section should be represented as positive numbers except where appropriate; the appendix will define such values where a negative value is expected. Otherwise, negative values should not be utilized except in narrow or unusual situations (e.g. reporting period reflects a

situation where no revenues were realized at the reporting period but a refund is the only transaction present. This would result in a “negative” revenue amount).

### **Section C**

Section C of the Bi-Annual Report must be completed by Licensees offering a Chapter 560 product/service. This information should be specific to Florida consumer transactions.

*See page 9 of this document for guidance on the information desired in each field of this section.*

Generally, all numbers reported in this section should be represented as positive numbers.

### **Attaching Supplemental Documentation**

If supplemental documentation is required (e.g. Section B field FC100 or other similar fields), please submit those documents in REAL via the attachments section of the Bi-Annual Report.

Note: When attaching documents, the user must select “Attach” after selecting the file the user wishes to include. Once all files are attached, then the user will select “Next” to continue.
