Securities that do not have an exercise or conversion price shall have a compensation value based on:

(A) the difference between:

(i) either the market price per security on the date of acquisition, or, if no bona fide independent market exists for the security, the public offering price per security; and

- (ii) the per security cost;
- (B) multiplied by the number of securities received or to be received as underwriting compensation;
- (C) divided by the offering proceeds; and
- (D) multiplied by one hundred.

(3) Valuation of Securities That Have an Exercise or Conversion Price

Options, warrants or convertible securities that have an exercise or conversion price ("warrants") shall have a compensation value based on the following formula:

- (A) the public offering price per security multiplied by .65;
- (B) minus the resultant of the exercise or conversion price per warrant less either:
 - (i) the market price per security on the date of acquisition, where a bona fide independent market exists for the security, or
 - (ii) the public offering price per security;
- (C) divided by two;
- (D) multiplied by the number of securities underlying the warrants;
- (E) less the total price paid for the warrants;
- (F) divided by the offering proceeds; and
- (G) multiplied by one hundred;
- (H) provided, however, that, notwithstanding paragraph (e)(4) below, such warrants shall have a compensation value of at least .2% of the offering proceeds for each amount of securities that is up to 1% of the securities being offered to the public (excluding securities subject to an overallotment option).

(4) Valuation Discount For Securities With a Longer Resale Restriction

A lower value equal to 10% of the calculated value shall be deducted for each 180-day period that the securities or underlying securities are restricted from sale or other disposition beyond the 180-day period of the lock-up restriction required by paragraph (g)(1) below. The transfers permitted during the lock-up restriction by paragraphs (g)(2)(A)(iii) through (iv) are not available for such securities.

(5) Valuation of Items of Value Acquired in Connection with a Fair Price Derivative or Debt Transaction

Any debt or derivative transaction acquired or entered into at a "fair price" as defined in paragraph (a)(9) and item of value received in or receivable in the settlement, exercise or other terms of such debt or derivative transaction shall not have a compensation value for purposes of determining underwriting compensation. If the actual price for the debt or derivative security is not a fair price, compensation will be calculated pursuant to this paragraph (e) or based on the difference between the fair price and the actual price.

(f) Unreasonable Terms and Arrangements

(1) General

No member or person associated with a member shall participate in any manner in a public offering of securities after any arrangement proposed in connection with the public offering, or the terms and conditions relating thereto, has been determined to be unfair or unreasonable pursuant to this Rule or inconsistent with any By-Law or any rule or regulation of FINRA.

(2) Prohibited Arrangements

Without limiting the foregoing, the following terms and arrangements, when proposed in connection with a public offering of securities, shall be unfair and unreasonable.

(B) Any non-accountable expense allowance in excess of 3% of offering proceeds.

(C) Any payment of commissions or reimbursement of expenses directly or indirectly to the underwriter and related persons prior to commencement of the public sale of the securities being offered, except a reasonable advance against out-of-pocket accountable expenses actually anticipated to be incurred by the underwriter and related persons, which advance is reimbursed to the issuer to the extent not actually incurred.

(D) The payment of any compensation by an issuer to a member or person associated with a member in connection with an offering of securities that is not completed according to the terms of agreement between the issuer and underwriter, except those negotiated and paid in connection with a transaction that occurs in lieu of the proposed offering as a result of the efforts of the underwriter and related persons and provided, however, that the reimbursement of out-of-pocket accountable expenses actually incurred by the member or person associated with a member shall not be presumed to be unfair or unreasonable under normal circumstances.

(E) Any "tail fee" arrangement granted to the underwriter and related persons that has a duration of more than two years from the date the member's services are terminated, in the event that the offering is not completed in accordance with the agreement between the issuer and the underwriter and the issuer subsequently consummates a similar transaction, except that a member may demonstrate on the basis of information satisfactory to FINRA that an arrangement of more than two years is not unfair or unreasonable under the circumstances.

(F) Any right of first refusal provided to the underwriter or related persons to underwrite or participate in future public offerings, private placements or other financings that:

(i) has a duration of more than three years from the date of effectiveness or commencement of sales of the public offering; or

(ii) has more than one opportunity to waive or terminate the right of first refusal in consideration of any payment or fee.

(i) has a value in excess of the greater of 1% of the offering proceeds in the public offering where the right of first refusal was granted (or an amount in excess of 1% if additional compensation is available under the compensation guideline of the original offering) or 5% of the underwriting discount or commission paid in connection with the future financing (including any overallotment option that may be exercised), regardless of whether the payment or fee is negotiated at the time of or subsequent to the original public offering; or

(ii) is not paid in cash.

(H) The terms or the exercise of the terms of an agreement for the receipt by the underwriter and related persons of underwriting compensation consisting of any option, warrant or convertible security that:

(v) has a piggyback registration right with a duration of more than seven years from the date of effectiveness or the commencement of sales of the public offering;

(vi) has anti-dilution terms that allow the underwriter and related persons to receive more shares or to exercise at a lower price than originally agreed upon at the time of the public offering, when the public shareholders have not been proportionally affected by a stock split, stock dividend, or other similar event; or

(vii) has anti-dilution terms that allow the underwriter and related persons to receive or accrue cash dividends prior to the exercise or conversion of the security.

(I) The receipt by the underwriter and related persons of any item of compensation for which a value cannot be determined at the time of the offering.

(K) The receipt by a member or person associated with a member, pursuant to an agreement entered into at any time before or after the effective date of a public offering of warrants, options, convertible securities or units containing such securities, of any compensation or expense reimbursement in connection with the exercise or conversion of any such warrant, option, or convertible security in any of the following circumstances:

(i) the market price of the security into which the warrant, option, or convertible security is exercisable or convertible is lower than the exercise or conversion price;

(ii) the warrant, option, or convertible security is held in a discretionary account at the time of exercise or conversion, except where prior specific written approval for exercise or conversion is received from the customer;

(iii) the arrangements whereby compensation is to be paid are not disclosed:

a. in the prospectus or offering circular by which the warrants, options, or convertible securities are offered to the public, if such arrangements are contemplated or any agreement exists as to such arrangements at that time, and

b. in the prospectus or offering circular provided to security holders at the time of exercise or conversion; or

(iv) the exercise or conversion of the warrants, options or convertible securities is not solicited by the underwriter or related person, provided however, that any request for exercise or conversion will be presumed to be unsolicited unless the customer states in writing that the transaction was solicited and designates in writing the broker-dealer to receive compensation for the exercise or conversion.

(L) For a member to participate with an issuer in the public distribution of a non-underwritten issue of securities if the issuer hires persons primarily for the purpose of distributing or assisting in the distribution of the issue, or for the purpose of assisting in any way in connection with the underwriting, except to the extent in compliance with SEA Rule 3a4-1 and applicable state law.

(M) For a member or person associated with a member to participate in a public offering of real estate investment trust securities, as defined in [NASD Rule 2340\(c\)\(4\)](#), unless the trustee will disclose in each annual report distributed to investors pursuant to Section 13(a) of the Exchange Act a per share estimated value of the trust securities, the method by which it was developed, and the date of the data used to develop the estimated value.

5120. Offerings of Members' Securities

5121. Public Offerings of Securities With Conflicts of Interest

(a) Requirements for Participation in Certain Public Offerings

No member that has a conflict of interest may participate in a public offering unless the offering complies with subparagraphs (1) or (2).

(1) There must be prominent disclosure of the nature of the conflict of interest in the prospectus, offering circular or similar document for the public offering, and one of the following conditions must be met:

(A) the member(s) primarily responsible for managing the public offering does not have a conflict of interest, is not an affiliate of any member that does have a conflict of interest, and meets the requirement of paragraph (f) (12)(E);

(B) the securities offered have a bona fide public market; or

(C) the securities offered are investment grade rated or are securities in the same series that have equal rights and obligations as investment grade rated securities.

(2) (A) A qualified independent underwriter has participated in the preparation of the registration statement and the prospectus, offering circular, or similar document and has exercised the usual standards of "due diligence" in respect thereto; and

(B) there must be prominent disclosure in the prospectus, offering circular or similar document for the offering of:

(i) the nature of the conflict of interest;

(1) All proceeds from a public offering by a member of its securities shall be placed in a duly established escrow account and shall not be released therefrom or used by the member in any manner until the member has complied with subparagraph (2) hereof.

(2) Any member offering its securities pursuant to this Rule shall immediately notify FINRA when the public offering has been terminated and settlement effected and shall file with FINRA a computation of its net capital

computed pursuant to the provisions of SEA Rule 15c3-1 (the net capital rule) as of the settlement date. If at such time its net capital ratio as so computed is more than 10:1 or, net capital fails to equal 120 percent of the minimum dollar amount required by Rule 15c3-1 or, in the event the member calculates its net capital requirement using the alternative standard (set forth in Rule 15c3-1(a)(1)(ii)), its net capital is less than seven percent of aggregate debit items as computed in accordance with Rule 15c3-3a, all monies received from sales of securities of the public offering must be returned in full to the purchasers thereof and the offering withdrawn, unless the member has obtained from the SEC a specific exemption from the net capital rule. Proceeds from the sales of securities in the public offering may be taken into consideration in computing net capital ratio for purposes of this paragraph.

(3) Any member offering its securities pursuant to this Rule shall disclose in the registration statement, offering circular or similar document a date by which the offering is reasonably expected to be completed and the terms upon which the proceeds will be released from the escrow account described in paragraph (b)(1).

(c) Discretionary Accounts

(c) Policies Concerning Flipping

(1) No member or person associated with a member may directly or indirectly recoup, or attempt to recoup, any portion of a commission or credit paid or awarded to an associated person for selling shares of a new issue that are subsequently flipped by a customer, unless the managing underwriter has assessed a penalty bid on the entire syndicate.

(2) In addition to any obligation to maintain records relating to penalty bids under SEA Rule 17a-2(c)(1), a member shall promptly record and maintain information regarding any penalties or disincentives assessed on its associated persons in connection with a penalty bid.

(d) New Issue Pricing and Trading Practices

In a new issue:

(1) Reports of Indications of Interest and Final Allocations. The book-running lead manager must provide to the issuer's pricing committee (or, if the issuer has no pricing committee, its board of directors):

(A) a regular report of indications of interest, including the names of interested institutional investors and the number of shares indicated by each, as reflected in the book-running lead manager's book of potential institutional orders, and a report of aggregate demand from retail investors;

(B) after the settlement date of the new issue, a report of the final allocation of shares to institutional investors as reflected in the books and records of the book-running lead manager including the names of purchasers and the number of shares purchased by each, and aggregate sales to retail investors;

(2) Lock-Up Agreements. Any lock-up agreement or other restriction on the transfer of the issuer's shares by officers and directors of the issuer entered into in connection with a new issue shall provide that:

(A) Any lock-up agreement or other restriction on the transfer of the issuer's shares by officers and directors of the issuer shall provide that such restrictions will apply to their issuer-directed shares; and

(B) At least two business days before the release or waiver of any lock-up or other restriction on the transfer of the issuer's shares, the book-running lead manager will notify the issuer of the impending release or waiver and announce the impending release or waiver through a major news service, except where the release or waiver is effected solely to permit a transfer of securities that is not for consideration and where the transferee has agreed in writing to be bound by the same lock-up agreement terms in place for the transferor;

(3) Agreement Among Underwriters. The agreement between the book-running lead manager and other syndicate members must require, to the extent not inconsistent with SEC Regulation M, that any shares trading at a premium to the public offering price that are returned by a purchaser to a syndicate member after secondary market trading commences:

(A) be used to offset the existing syndicate short position, or

(B) if no syndicate short position exists, the member must either:

(i) offer returned shares at the public offering price to unfilled customers' orders pursuant to a random allocation methodology, or

(ii) sell returned shares on the secondary market and donate profits from the sale to an unaffiliated charitable organization with the condition that the donation be treated as an anonymous donation to avoid any reputational benefit to the member.

(4) Market Orders. No member may accept a market order for the purchase of shares of a new issue in the secondary market prior to the commencement of trading of such shares in the secondary market.

(e) Definitions

For purposes of this Rule, the following terms shall have the meanings stated below.

(1) A "public company" is any company that is registered under Section 12 of the Exchange Act or files periodic reports pursuant to Section 15(d) thereof.

(2) "Beneficial interest" shall have the same meaning as in FINRA [Rule 5130\(i\)\(1\)](#).

(3) "Covered non-public company" means any non-public company satisfying the following criteria: (i) income of at least \$1 million in the last fiscal year or in two of the last three fiscal years and shareholders' equity of at least \$15 million; (ii) shareholders' equity of at least \$30 million and a two-year operating history; or (iii) total assets and total revenue of at least \$75 million in the latest fiscal year or in two of the last three fiscal years.

(4) "Flipped" means the initial sale of new issue shares purchased in an offering within 30 days following the offering date of such offering.

(5) "Investment banking services" include, without limitation, acting as an underwriter, participating in a selling group in an offering for the issuer or otherwise acting in furtherance of a public offering of the issuer; acting as a financial adviser in a merger, acquisition or other corporate reorganization; providing venture capital, equity lines of

credit, private investment, public equity transactions (PIPEs) or similar investments or otherwise acting in furtherance of a private offering of the issuer; or serving as placement agent for the issuer.

(6) "Material support" means directly or indirectly providing more than 25% of a person's income in the prior calendar year. Persons living in the same household are deemed to be providing each other with material support.

(7) "New issue" shall have the same meaning as in [Rule 5130\(i\)\(9\)](#).

(8) "Penalty bid" means an arrangement that permits the managing underwriter to reclaim a selling concession from a syndicate member in connection with an offering when the securities originally sold by the syndicate member are purchased in syndicate covering transactions.

(9) "Unaffiliated charitable organization" is a tax-exempt entity organized under Section 501(c)(3) of the Internal Revenue Code that is not affiliated with the member and for which no executive officer or director of the member, or person materially supported by such executive officer or director, is an individual listed or required to be listed on Part VII of Internal Revenue Service Form 990 (i.e., officers, directors, trustees, key employees, highest compensated employees and certain independent contractors).

••• **Supplementary Material:** -----

.01 Issuer Directed Allocations. The prohibitions of paragraph (b) above shall not apply to allocations of securities that are directed in writing by the issuer, its affiliates, or selling shareholders, so long as the member has no involvement or influence, directly or indirectly, in the allocation decisions of the issuer, its affiliates, or selling shareholders with respect to such issuer-directed securities.

.02 Written Representations.

(a) Annual Representation. For the purposes of Rule 5131(b), a member may rely upon a written representation obtained within the prior 12 months from the beneficial owner(s) of the account, or a person authorized to represent the beneficial owner(s) of the account, as to whether such beneficial owner(s) is an executive officer or director or person materially supported by an executive officer or director and if so, the company(ies) on whose behalf such executive officer or director serves.

(b) Indirect Beneficial Owners. For the purposes of Rule 5131(b), a member may rely upon a written representation obtained within the prior 12 months from a person authorized to represent an account that does not look through to the beneficial owners of any unaffiliated private fund invested in the account, except for beneficial owners that are control persons of the investment adviser to such private fund, that such unaffiliated private fund:

(1) is managed by an investment adviser;

(2) has assets greater than \$50 million;

(3) owns less than 25% of the account and is not a fund in which a single investor has a beneficial interest of 25% or more; and

(4) was not formed for the specific purpose of investing in the account.

An unaffiliated private fund is a "private fund," as defined in Section 202(a)(29) of the Investment Advisers Act, whose investment adviser does not have a control person in common with the investment adviser to the account. A control person of an investment adviser is a person with direct or indirect "control" over the investment adviser, as that term is defined in Form ADV.

(c) A member may not rely upon any representation that it believes, or has reason to believe, is inaccurate. A member shall maintain a copy of all records and information relating to whether an account is eligible to receive an allocation of the new issue under Rule 5131(b) in its files for at least three years following the member's allocation to that account.

.03 Lock-up Announcements. For the purposes of this Rule, the requirement that the book-running lead manager announce the impending release or waiver of a lock-up or other restriction on the transfer of the issuer's shares shall be deemed satisfied where such announcement is made by the book-running lead manager, another member or the issuer, so long as such announcement otherwise complies with the requirements of paragraph (d)(2) of this Rule.

5140. Integrity of Fixed Price Offerings

5141. Sale of Securities in a Fixed Price Offering

(a) No member or person associated with a member that participates in a selling syndicate or selling group or that acts as the single underwriter in connection with a fixed price offering shall offer or grant, directly or indirectly, to any person or account that is not a member of the selling syndicate or selling group or that is a person or account other than the single underwriter any securities in the offering at a price below the stated public offering price ("reduced price"). Subject to the requirements of [Rule 5130](#), a member of a selling syndicate or selling group, or a member that acts as the single underwriter, is permitted to sell securities in the offering to an affiliated person, provided such member does not sell the securities to the affiliated person at a reduced price under this Rule. The requirements of this Rule shall apply until the termination of the offering or until a member, having made a bona fide public offering of the securities, is unable to continue selling such securities at the stated public offering price. For purposes of this Rule, securities in a fixed price offering shall be presumed salable if the securities immediately trade in the secondary market at a price or prices which are above the stated public offering price.

(b) Nothing in this Rule shall prohibit the purchase and sale of securities in a fixed price offering between members of the selling syndicate or selling group.

••• Supplementary Material: -----

.01 Reduced Price. For the purposes of this Rule, "reduced price" includes, without limitation, any offer or grant of any selling concession, discount or other allowance, credit, rebate, reduction of any fee (including any advisory or service fee), any sale of products or services at prices below reasonable commercially available rates for similar products and services (except for research subject to Rule 5141.02), or any purchase of or arrangement to purchase securities from the person or account at more than their fair market price in exchange for securities in the offering. For purposes of this Supplementary Material, "fair market price" refers generally to a price or range of prices at which a buyer and a seller, each unrelated to the other, would purchase the securities in the ordinary course of business in transactions that are of similar size and similar characteristics and are independent of any other transaction.

.02 Research. Nothing in this Rule shall prevent a member or person associated with a member that participates in a selling syndicate or selling group, or a member that acts as the single underwriter, from selling securities in the offering to a person or account to which it has provided or will provide research, provided the person or account pays the stated public offering price for the securities and the research is provided pursuant to the requirements of Section 28(e) of the Exchange Act. Investment management or investment discretionary services are not research for purposes of this Supplementary Material. Any product or service provided by a member or person associated with a member that does not qualify as research under this Supplementary Material must not confer a reduced price as set forth in Rule 5141.01.

.03 Affiliated Persons. Transactions between a member of a selling syndicate or selling group, or between a member that acts as the single underwriter, and an affiliated person that are part of the normal and ordinary course of business and are unrelated to the sale or purchase of securities in a fixed price offering shall not be deemed to confer a reduced price under this Rule.

.04 Fixed Price Offering. The term "fixed price offering" means the offering of securities at a stated public offering price or prices, all or part of which securities are publicly offered in the United States or any territory thereof, whether or not registered under the Securities Act, except that the term does not include offerings of "exempted securities" or "municipal securities" as those terms are defined in Sections 3(a)(12) and 3(a)(29), respectively, of the Exchange Act or offerings of redeemable securities of investment companies registered pursuant to the Investment Company Act which are offered at prices determined by the net asset value of the securities.

.05 Asset-Based Fees. A member that is an investment adviser may exempt securities that are purchased as part of a fixed price offering from the calculation of annual or periodic asset-based fees that such member charges to a customer, provided such exemption is part of the member's normal and ordinary course of business with the customer and is not in connection with an offering.

5150. Fairness Opinions

(a) Disclosures

If at the time a fairness opinion is issued to the board of directors of a company the member issuing the fairness opinion knows or has reason to know that the fairness opinion will be provided or described to the company's public shareholders, the member must disclose in the fairness opinion:

(1) if the member has acted as a financial advisor to any party to the transaction that is the subject of the fairness opinion, and, if applicable, that it will receive compensation that is contingent upon the successful completion of the transaction, for rendering the fairness opinion and/or serving as an advisor;

(2) if the member will receive any other significant payment or compensation contingent upon the successful completion of the transaction;

(3) any material relationships that existed during the past two years or that are mutually understood to be contemplated in which any compensation was received or is intended to be received as a result of the relationship between the member and any party to the transaction that is the subject of the fairness opinion;

(4) if any information that formed a substantial basis for the fairness opinion that was supplied to the member by the company requesting the opinion concerning the companies that are parties to the transaction has been independently verified by the member, and if so, a description of the information or categories of information that were verified;

(5) whether or not the fairness opinion was approved or issued by a fairness committee; and

(6) whether or not the fairness opinion expresses an opinion about the fairness of the amount or nature of the compensation to any of the company's officers, directors or employees, or class of such persons, relative to the compensation to the public shareholders of the company.

(b) Procedures

Any member issuing a fairness opinion must have written procedures for approval of a fairness opinion by the member, including:

(1) the types of transactions and the circumstances in which the member will use a fairness committee to approve or issue a fairness opinion, and in those transactions in which it uses a fairness committee:

(A) the process for selecting personnel to be on the fairness committee;

(B) the necessary qualifications of persons serving on the fairness committee;

(C) the process to promote a balanced review by the fairness committee, which shall include the review and approval by persons who do not serve on the deal team to the transaction; and

(2) the process to determine whether the valuation analyses used in the fairness opinion are appropriate.

This [Rule 5190](#) sets forth the notice requirements applicable to all members participating in offerings of securities for purposes of monitoring compliance with the provisions of SEC Regulation M. In addition to the requirements under this [Rule 5190](#), members also must comply with all applicable rules governing the withdrawal of quotations in accordance with SEC Regulation M.

(b) Definitions

For purposes of this Rule, the following terms shall have the meanings as set forth in Rules 100 and 101 of SEC Regulation M: “actively traded,” “affiliated purchaser,” “covered security,” “distribution,” “distribution participant,” “offering price,” “penalty bid,” “restricted period,” “selling security holder,” and “syndicate covering transaction.”

(A) the member's determination as to whether a one-day or five-day restricted period applies under Rule 101 of SEC Regulation M and the basis for such determination, including the contemplated date and time of the commencement of the restricted period, the security name and symbol, and identification of the distribution participants and affiliated purchasers, no later than the business day prior to the first complete trading session of the applicable restricted period, unless later notification is necessary under specific circumstances;

(B) the pricing of the distribution, including the security name and symbol, the type of security, the number of shares offered, the offering price, the last sale before the distribution, the pricing basis, the SEC effective date and time, the trade date, the restricted period, and identification of the distribution participants and affiliated purchasers, no later than the close of business the next business day following the pricing of the distribution, unless later notification is necessary under specific circumstances; and

(C) the cancellation or postponement of any distribution for which prior notification of commencement of the restricted period has been submitted under paragraph (c)(1)(A) above, immediately upon the cancellation or postponement of such distribution.

If no member is acting as a manager (or in a similar capacity) of such distribution, then each member that is a distribution participant or affiliated purchaser shall provide the notice required under this paragraph (c)(1), unless another member has assumed responsibility in writing for compliance therewith.

(2) Any member that is an issuer or selling security holder in a distribution of any security that is a covered security subject to a restricted period under Rule 102 of SEC Regulation M shall comply with the notice requirements of paragraph (c)(1), unless another member has assumed responsibility in writing for compliance therewith.

(d) Notice Relating to Distributions of “Actively Traded” Securities Under SEC Regulation M

A member acting as a manager (or in a similar capacity) of a distribution of any security that is considered an “actively traded” security under Rule 101 of SEC Regulation M shall provide written notice to FINRA, in such form as specified by FINRA, of the following:

(1) the member's determination that no restricted period applies under Rule 101 of SEC Regulation M and the basis for such determination; and

5200. QUOTATION AND TRADING OBLIGATIONS AND PRACTICES

5210. Publication of Transactions and Quotations

No member shall publish or circulate, or cause to be published or circulated, any notice, circular, advertisement, newspaper article, investment service, or communication of any kind which purports to report any transaction as a purchase or sale of any security unless such member believes that such transaction was a bona fide purchase or sale of such security; or which purports to quote the bid price or asked price for any security, unless such member believes that such quotation represents a bona fide bid for, or offer of, such security.

••• Supplementary Material: -----

.01 Manipulative and Deceptive Quotations. It shall be deemed inconsistent with Rules [2010](#) (Standards of Commercial Honor and Principles of Trade), [2020](#) (Use of Manipulative, Deceptive or Other Fraudulent Devices) and 5210 (Publication of Transactions and Quotations) for a member to publish or circulate or cause to be published or circulated, by any means whatsoever, any report of any securities transaction or of any purchase or sale of any security unless such member knows or has reason to believe that such transaction was a bona fide transaction, purchase or sale.

Similarly, it shall be deemed inconsistent with Rules [2010](#), [2020](#) and 5210 for a member, for itself or for any other person, to publish or circulate or to cause to be published or circulated, by any means whatsoever, any quotation for any security without having reasonable cause to believe that such quotation is a bona fide quotation, is not fictitious and is not published or circulated or caused to be published or circulated for any fraudulent, deceptive or manipulative purpose.

For the purposes of this Rule, the term "quotation" shall include any bid or offer or any formula, such as "bid wanted" or "offer wanted," designed to induce any person to make or submit any bid or offer.

5220. Offers at Stated Prices

No member shall make an offer to buy from or sell to any person any security at a stated price unless such member is prepared to purchase or sell, as the case may be, at such price and under such conditions as are stated at the time of such offer to buy or sell.

••• Supplementary Material: -----

.01 Firmness of Quotations. Members and persons associated with members in the over-the-counter market make trading decisions and set prices for customers upon the basis of telephone and electronic quotations, including quotations displayed in an inter-dealer quotation system. In some instances a dealer's quotations, purportedly firm, are, in fact, so qualified upon further inquiry as to constitute "backing away" by the quoting dealer. Further, dealers who publish quotations in inter-dealer quotation systems have been found to be unwilling to make firm bids or offers upon inquiry in such a way as to pose a question as to the validity of the quotations originally published. Such "backing away" from quotations disrupts the normal operation of the over-the-counter market.

Members, of course, change inter-dealer quotations constantly in the course of trading, but under normal circumstances where the member is making a "firm trading market" in any security, it is expected at least to buy or sell a normal unit of trading in the quoted stock at its then prevailing quotations unless clearly designated as not firm or firm for less than a normal unit of trading when supplied by the member. However, if at the time an order for the purchase or sale of the quoted security is presented, the member is in the process of effecting a transaction in such quoted security, and immediately after the completion of such transaction, communicates a revised quotation size, such member shall not be obligated to purchase or sell the quoted security in an amount greater than such revised quotation size.

In order to ensure the integrity of quotations, every member has an obligation to correctly identify the nature of its quotations when they are supplied to others. In addition, each member furnishing quotations must ensure that it is adequately staffed to respond to inquiries during the normal business hours of such member.

It shall be deemed inconsistent with Rules [2010](#) (Standards of Commercial Honor and Principles of Trade) and 5220 (Offers at Stated Prices) if a member fails to fulfill its obligations as outlined above.

For the purposes of this Rule, the term "inter-dealer quotation system" is as defined in [Rule 6420](#).

5230. Payments Involving Publications that Influence the Market Price of a Security

(a) Except as provided in paragraph (b), no member shall, directly or indirectly, give, permit to be given, or offer to give, anything of value to any person for the purpose of influencing or rewarding the action of such person in connection with the publication or circulation in any electronic or other public media, including any investment service or similar publication, Web site, newspaper, magazine or other periodical, radio, or television program of any matter that has, or is intended to have, an effect upon the market price of any security.

(b) The prohibitions in paragraph (a) shall not apply to compensation paid to a person in connection with the publication or circulation of:

(1) a communication that is clearly distinguishable as paid advertising;

(2) a communication that discloses the receipt of compensation and the amount thereof in accordance with Section 17(b) of the Securities Act; or

5240. Anti-Intimidation/Coordination

(a) No member or person associated with a member shall:

(1) coordinate the prices (including quotations), trades or trade reports of such member with any other member or person associated with a member, or any other person;

(2) direct or request another member to alter a price (including a quotation); or

(3) engage, directly or indirectly, in any conduct that threatens, harasses, coerces, intimidates or otherwise attempts improperly to influence another member, a person associated with a member, or any other person.

This includes, but is not limited to, any attempt to influence another member or person associated with a member to adjust or maintain a price or quotation, whether displayed on any facility operated by FINRA or otherwise, or refusals to trade or other conduct that retaliates against or discourages the competitive activities of another market maker or market participant.

(b) Provided that the conduct in subparagraphs (1) through (7) below is otherwise in compliance with all applicable law, nothing in this Rule respecting coordination of quotes, trades or trade reports shall be deemed to limit, constrain or otherwise inhibit the freedom of a member or person associated with a member to:

(1) set unilaterally its own bid or ask in any security, the prices at which it is willing to buy or sell any security, and the quantity of shares of any security that it is willing to buy or sell;

(2) set unilaterally its own dealer spread, quote increment or quantity of shares for its quotations (or set any relationship between or among its dealer spread, inside spread, or the size of any quote increment) in any security;

(3) communicate its own bid or ask, or the prices at or the quantity of shares in which it is willing to buy or sell any security to any person, for the purpose of exploring the possibility of a purchase or sale of that security, and to negotiate for or agree to such purchase or sale;

(4) communicate its own bid or ask, or the price at or the quantity of shares in which it is willing to buy or sell any security, to any person for the purpose of retaining such person as an agent or subagent for the member or for a customer of the member (or for the purpose of seeking to be retained as an agent or subagent), and to negotiate for or agree to such purchase or sale;

(5) engage in any underwriting (or any syndicate for the underwriting) of securities to the extent permitted by the federal securities laws;

(6) take any unilateral action or make any unilateral decision regarding the market makers with which it will trade and the terms on which it will trade unless such action is prohibited by paragraph (a) of this Rule; and

(7) deliver an order to another member for handling.

(a) No member or person associated with a member shall accept any payment or other consideration, directly or indirectly, from an issuer of a security, or any affiliate or promoter thereof, for publishing a quotation, acting as market maker in a security, or submitting an application in connection therewith.

(b) The provisions of paragraph (a) shall not preclude a member from accepting:

(1) payment for bona fide services, including, but not limited to, investment banking services (including underwriting compensation and fees);

(2) reimbursement of any payment for registration imposed by the SEC or state regulatory authorities and for listing of an issue of securities imposed by a self-regulatory organization; and

(3) any payment expressly provided for under the rules of a national securities exchange that are effective after being filed with, or filed with and approved by, the SEC pursuant to the requirements of the Exchange Act.

5270. Front Running of Block Transactions

(a) No member or person associated with a member shall cause to be executed an order to buy or sell a security or a related financial instrument when such member or person associated with a member causing such order to be executed

has material, non-public market information concerning an imminent block transaction in that security, a related financial instrument or a security underlying the related financial instrument prior to the time information concerning the block transaction has been made publicly available or has otherwise become stale or obsolete.

(b) This Rule applies to orders caused to be executed for any account in which such member or person associated with the member has an interest, any account with respect to which such member or person associated with a member exercises investment discretion, or for accounts of customers or affiliates of the member when the customer or affiliate has been provided such material, non-public market information by the member or any person associated with the member.

(c) For purposes of this Rule, the term "related financial instrument" shall mean any option, derivative, security-based swap, or other financial instrument overlying a security, the value of which is materially related to, or otherwise acts as a substitute for, such security, as well as any contract that is the functional economic equivalent of a position in such security.

••• **Supplementary Material:** -----

.01 Knowledge of Block Transactions. The violative practices in Rule 5270 may include transactions that are executed based upon knowledge of less than all of the terms of the block transaction, so long as there is knowledge that all of the material terms of the transaction have been or will be agreed upon imminently.

.02 Publicly Available Information. Information as to a block transaction shall be considered to be publicly available when it has been disseminated via a last sale reporting system or high speed communications line of one of those systems, a similar system of a national securities exchange under Section 6 of the Exchange Act, an alternative trading system under SEC Regulation ATS, or by a third-party news wire service. The requirement that information concerning the block transaction be made publicly available will not be satisfied until the entire block transaction has been completed and publicly reported.

.03 Examples of Block Transactions. In the context of equity securities, a transaction involving 10,000 shares or more of a security, an underlying security, or a related financial instrument overlying such number of shares, is generally deemed to be a block transaction, although a transaction of fewer than 10,000 shares could be considered a block transaction. A block transaction that has been agreed upon does not lose its identity as such by arranging for partial executions of the full transaction in portions which themselves are not of block size if the execution of the full transaction may have a material impact on the market.

.04 Permitted Transactions.

(a) Rule 5270 does not preclude transactions that the member can demonstrate are unrelated to the material, non-public market information received in connection with the customer order. These types of transactions may include:

- (1) transactions where the member has information barriers established to prevent internal disclosure of such information;
- (2) transactions in the same security related to a prior customer order in that security;
- (3) transactions to correct bona fide errors; or
- (4) transactions to offset odd-lot orders.

(b) Rule 5270 does not preclude transactions undertaken for the purpose of fulfilling, or facilitating the execution of, the customer block order. However, when engaging in trading activity that could affect the market for the security that is the subject of the customer block order, the member must minimize any potential disadvantage or harm in the execution of the customer's order, must not place the member's financial interests ahead of those of its customer, and must obtain the customer's consent to such trading activity. A member may obtain its customers' consent through affirmative written consent or through the use of a negative consent letter. The negative consent letter must clearly disclose to the customer the terms and conditions for handling the customer's orders; if the customer does not object, then the member may reasonably conclude that the customer has consented and the member may rely on such letter for all or a portion of the customer's orders. In addition, a member may provide clear and comprehensive oral disclosure to and obtain consent from the customer on an order-by-order basis, provided that the member documents who provided such consent and such consent evidences the customer's understanding of the terms and conditions for handling the customer's order.

(c) The prohibitions in Rule 5270 shall not apply if the member's trading activity is undertaken in compliance with the marketplace rules of a national securities exchange and at least one leg of the trading activity is executed on that exchange.

.05 Front Running of Non-Block Transactions. Although the prohibitions in Rule 5270 are limited to imminent block

transactions, the front running of other types of orders that place the financial interests of the member or persons associated with a member ahead of those of its customer or the misuse of knowledge of an imminent customer order may violate other FINRA rules, including [Rule 2010](#) and [Rule 5320](#), or provisions of the federal securities laws.

5280. Trading Ahead of Research Reports

(a) No member shall establish, increase, decrease or liquidate an inventory position in a security or a derivative of such security based on non-public advance knowledge of the content or timing of a research report in that security.

(b) A member must establish, maintain and enforce policies and procedures reasonably designed to restrict or limit the information flow between research department personnel, or other persons with knowledge of the content or timing of a research report, and trading department personnel, so as to prevent trading department personnel from utilizing non-public advance knowledge of the issuance or content of a research report for the benefit of the member or any other person.

5290. Order Entry and Execution Practices

No member or associated person shall engage in conduct that has the intent or effect of splitting any order into multiple smaller orders for execution or any execution into multiple smaller executions for transaction reporting for the primary purpose of maximizing a monetary or in-kind amount to be received by the member or associated person as a result of the execution of such orders or the transaction reporting of such executions. For purposes of this Rule, "monetary or in-kind amount" shall be defined to include, but not be limited to, any credits, commissions, gratuities, payments for or rebates of fees, or any other payments of value to the member or associated person.

5300. HANDLING OF CUSTOMER ORDERS

5310. Best Execution and Interpositioning

(a)(1) In any transaction for or with a customer or a customer of another broker-dealer, a member and persons associated with a member shall use reasonable diligence to ascertain the best market for the subject security and buy or sell in such market so that the resultant price to the customer is as favorable as possible under prevailing market conditions. Among the factors that will be considered in determining whether a member has used "reasonable diligence" are:

(A) the character of the market for the security (e.g., price, volatility, relative liquidity, and pressure on available communications);

(B) the size and type of transaction;

(C) the number of markets checked;

(D) accessibility of the quotation; and

(E) the terms and conditions of the order which result in the transaction, as communicated to the member and persons associated with the member.

(2) In any transaction for or with a customer or a customer of another broker-dealer, no member or person associated with a member shall interject a third party between the member and the best market for the subject security in a manner inconsistent with paragraph (a)(1) of this Rule.

(b) When a member cannot execute directly with a market but must employ a broker's broker or some other means in order to ensure an execution advantageous to the customer, the burden of showing the acceptable circumstances for doing so is on the member.

(c) Failure to maintain or adequately staff an over-the-counter order room or other department assigned to execute customers' orders cannot be considered justification for executing away from the best available market; nor can channeling orders through a third party as described above as reciprocation for service or business operate to relieve a member of its obligations under this Rule.

(d) A member through which an order is channeled and that knowingly is a party to an arrangement whereby the initiating member has not fulfilled its obligations under this Rule, will also be deemed to have violated this Rule.

(e) The obligations described in paragraphs (a) through (d) above exist not only where the member acts as agent for the account of its customer but also where transactions are executed as principal. Such obligations are distinct from the reasonableness of commission rates, markups or markdowns, which are governed by NASD [Rule 2440](#) and IM-2440.

••• **Supplementary Material:** -----

.01 Execution of Marketable Customer Orders. A member must make every effort to execute a marketable customer order that it receives fully and promptly.

.02 Definition of "Market." For the purposes of Rule 5310 and the accompanying Supplementary Material, the term "market" or "markets" is to be construed broadly, and it encompasses a variety of different venues, including, but not limited to, market centers that are trading a particular security. This expansive interpretation is meant to both inform broker-dealers as to the breadth of the scope of venues that must be considered in the furtherance of their best execution obligations and to promote fair competition among broker-dealers, exchange markets, and markets other than exchange markets, as well as any other venue that may emerge, by not mandating that certain trading venues have less relevance than others in the course of determining a firm's best execution obligations.

.03 Best Execution and Debt Securities. Rule 5310(a)(1)(D) provides that one of the factors used to determine if a member has used reasonable diligence in exercising best execution is the "accessibility of the quotation." In the context of the debt market, this means that, when quotations are available, FINRA will consider the accessibility of such quotations when examining whether a member has used reasonable diligence. For purposes of debt securities, the term "quotation" refers to either dollar (or other currency) pricing or yield pricing. Accessibility is only one of the non-exhaustive reasonable diligence factors set out in Rule 5310(a)(1). In the absence of accessibility, members are not relieved from taking reasonable steps and employing their market expertise in achieving the best execution of customer orders.

.04 Best Execution and Executing Brokers. A member's duty to provide best execution in any transaction "for or with a customer of another broker-dealer" does not apply in instances when another broker-dealer is simply executing a customer order against the member's quote. The duty to provide best execution to customer orders received from other broker-dealers arises only when an order is routed from the broker-dealer to the member for the purpose of order handling and execution. This clarification is intended to draw a distinction between those situations in which the member is acting solely as the buyer or seller in connection with orders presented by a broker-dealer against the member's quote, as opposed to those circumstances in which the member is accepting order flow from another broker-dealer for the purpose of facilitating the handling and execution of such orders.

.05 Use of a Broker's Broker. Paragraph (b) of the Rule provides that when a member cannot execute directly with a market but must employ a broker's broker or some other means in order to ensure an execution advantageous to the customer, the burden of showing the acceptable circumstances for doing so is on the member. Examples of acceptable circumstances are where a customer's order is "crossed" with another firm that has a corresponding order on the other side, or where the identity of the firm, if known, would likely cause undue price movements adversely affecting the cost or proceeds to the customer.

.06 Orders Involving Securities with Limited Quotations or Pricing Information. Although the best execution requirements in Rule 5310 apply to orders in all securities, markets for securities differ dramatically. One of the areas in which a member must be especially diligent in ensuring that it has met its best execution obligations is with respect to customer orders involving securities for which there is limited pricing information or quotations available. Each member must have written policies and procedures in place that address how the member will determine the best inter-dealer market for such a security in the absence of pricing information or multiple quotations and must document its compliance with those policies and procedures. For example, a member should analyze pricing information based on other data, such as previous trades in the security, to determine whether the resultant price to the customer is as favorable as possible under prevailing market conditions. In these instances, a member should generally seek out other sources of pricing information or potential liquidity, which may include obtaining quotations from other sources (e.g., other firms that the member previously has traded with in the security).

07. Orders Involving Foreign Securities. The obligation in Rule 5310(a) that a member use “reasonable diligence” in exercising best execution applies to customer orders in both domestic and foreign securities. However, Rule 5310(a) also recognizes that the markets for different securities can vary dramatically, and the standard of “reasonable diligence” must be assessed by examining specific factors, including “the character of the market for the security” and the “accessibility of the quotation.” Accordingly, the determination as to whether a member has satisfied its best execution obligations necessarily involves a “facts and circumstances” analysis.

The handling of customer orders in foreign securities that do not trade in the U.S. can differ substantially from the handling of orders in U.S.-traded securities. In particular, the character of the particular foreign market and the accessibility of quotations in certain foreign markets may vary significantly. Some foreign jurisdictions, for example, may not have similar best execution requirements as those imposed by Rule 5310, or may not have comparable access and pre-trade or post-trade transparency standards.

Even though a security does not trade in the U.S., members still have an obligation to seek best execution for customer orders involving any foreign security. Consequently, a member that handles customer orders involving foreign securities that do not trade in the U.S. must have specific written policies and procedures in place regarding its handling of customer orders for these securities that are reasonably designed to obtain the most favorable terms available for the customer, taking into account differences that may exist between U.S. markets and foreign markets. While best execution obligations take into account differing market structures, best execution obligations also must evolve as changes occur in the market that may give rise to improved executions, including opportunities to trade at more advantageous prices. As such, members also must regularly review these policies and procedures to assess the quality of executions received and update or revise the policies and procedures as necessary.

.08 Customer Instructions Regarding Order Handling. If a member receives an unsolicited instruction from a customer to route that customer's order to a particular market for execution, the member is not required to make a best execution determination beyond the customer's specific instruction. Members are, however, still required to process that customer's order promptly and in accordance with the terms of the order. Where a customer has directed that an order be routed to another specific broker-dealer that is also a FINRA member, the receiving broker-dealer to which the order was directed would be required to meet the requirements of Rule 5310 with respect to its handling of the order.

.09 Regular and Rigorous Review of Execution Quality.

(a) No member can transfer to another person its obligation to provide best execution to its customers' orders. A member that routes customer orders to other broker-dealers for execution on an automated, non-discretionary basis, as well as a member that internalizes customer order flow, must have procedures in place to ensure the member periodically conducts regular and rigorous reviews of the quality of the executions of its customers' orders if it does not conduct an order-by-order review. The review must be conducted on a security-by-security, type-of-order basis (e.g., limit order, market order, and market on open order). At a minimum, a member must conduct such reviews on a quarterly basis; however, members should consider, based on the firm's business, whether more frequent reviews are needed.

(b) In conducting its regular and rigorous review, a member must determine whether any material differences in execution quality exist among the markets trading the security and, if so, modify the member's routing arrangements or justify why it is not modifying its routing arrangements. To assure that order flow is directed to markets providing the most beneficial terms for their customers' orders, the member must compare, among other things, the quality of the executions the member is obtaining via current order routing and execution arrangements (including the internalization of order flow) to the quality of the executions that the member could obtain from competing markets. In reviewing and comparing the execution quality of its current order routing and execution arrangements to the execution quality of other markets, a member should consider the following factors:

- (1) price improvement opportunities (i.e., the difference between the execution price and the best quotes

prevailing at the time the order is received by the market);

(2) differences in price disimprovement (i.e., situations in which a customer receives a worse price at execution than the best quotes prevailing at the time the order is received by the market);

(3) the likelihood of execution of limit orders;

(4) the speed of execution;

(5) the size of execution;

(6) transaction costs;

(7) customer needs and expectations; and

(8) the existence of internalization or payment for order flow arrangements.

(c) A member that routes its order flow to another member that has agreed to handle that order flow as agent for the customer (e.g., a clearing firm or other executing broker-dealer) can rely on that member's regular and rigorous review as long as the statistical results and rationale of the review are fully disclosed to the member and the member periodically reviews how the review is conducted, as well as the results of the review.

5320. Prohibition Against Trading Ahead of Customer Orders

(a) Except as provided herein, a member that accepts and holds an order in an equity security from its own customer or a customer of another broker-dealer without immediately executing the order is prohibited from trading that security on the same side of the market for its own account at a price that would satisfy the customer order, unless it immediately thereafter executes the customer order up to the size and at the same or better price at which it traded for its own account.

(b) A member must have a written methodology in place governing the execution and priority of all pending orders that is consistent with the requirements of this Rule and [Rule 5310](#). A member also must ensure that this methodology is consistently applied.

••• Supplementary Material: -----

.01 Large Orders and Institutional Account Exceptions. With respect to orders for customer accounts that meet the definition of an "institutional account" as defined in [Rule 4512\(c\)](#), or for orders of 10,000 shares or more (unless such orders are less than \$100,000 in value), a member is permitted to trade a security on the same side of the market for its own account at a price that would satisfy such customer order, provided that the member has provided clear and comprehensive written disclosure to such customer at account opening and annually thereafter that:

(a) discloses that the member may trade proprietarily at prices that would satisfy the customer order, and

(b) provides the customer with a meaningful opportunity to opt in to the Rule 5320 protections with respect to all or any portion of its order.

If the customer does not opt in to the [Rule 5320](#) protections with respect to all or any portion of its order, the member may reasonably conclude that such customer has consented to the member trading a security on the same side of the market for its own account at a price that would satisfy the customer's order.

In lieu of providing written disclosure to customers at account opening and annually thereafter, a member may provide clear and comprehensive oral disclosure to and obtain consent from the customer on an order-by-order basis, provided that the member documents who provided such consent and such consent evidences the customer's understanding of the terms and conditions of the order.

.02 No-Knowledge Exception

(a) With respect to NMS stocks, as defined in Rule 600 of SEC Regulation NMS, if a member implements and utilizes an effective system of internal controls, such as appropriate information barriers, that operate to prevent one trading unit from obtaining knowledge of customer orders held by a separate trading unit, those other trading units trading in a proprietary capacity may continue to trade at prices that would satisfy the customer orders held by the separate trading unit. A member that structures its order handling practices in NMS stocks to permit its market-making desk to trade at prices that would satisfy customer orders held by a separate trading unit must disclose in writing to its customers, at account opening and annually thereafter, a description of the manner in which customer orders are handled by the member and the circumstances under which the member may trade proprietarily at its market-making desk at prices that would satisfy the customer order.

(b) With respect to OTC equity securities, as defined in [Rule 6420](#), if a member implements and utilizes an effective system of internal controls, such as appropriate information barriers, that operate to prevent a non-market-making trading unit from obtaining knowledge of customer orders held by a separate trading unit, the non-market-making trading unit trading in a proprietary capacity may continue to trade at prices that would satisfy the customer orders held by the separate trading unit.

(c) If a member implements and utilizes appropriate information barriers in reliance on this exception, the member must uniquely identify such information barriers as prescribed in [Rule 7440](#)(b)(19).

.03 Riskless Principal Exception. The obligations under this Rule shall not apply to a member's proprietary trade if such proprietary trade is for the purposes of facilitating the execution, on a riskless principal basis, of an order from a customer (whether its own customer or the customer of another broker-dealer) (the "facilitated order"), provided that the member:

(a) submits a report, contemporaneously with the execution of the facilitated order, identifying the trade as riskless principal to FINRA (or another self-regulatory organization if not required under FINRA rules); and

(b) has written policies and procedures to ensure that riskless principal transactions for which the member is relying upon this exception comply with applicable FINRA rules. At a minimum these policies and procedures must require that the customer order was received prior to the offsetting principal transaction, and that the offsetting principal transaction is at the same price as the customer order exclusive of any markup or markdown, commission equivalent or other fee and is allocated to a riskless principal or customer account in a consistent manner and within 60 seconds of execution.

Members must have supervisory systems in place that produce records that enable the member and FINRA to reconstruct accurately, readily, and in a time-sequenced manner all facilitated orders for which the member relies on this exception.

.04 ISO Exception. A member shall be exempt from the obligation to execute a customer order in a manner consistent with this Rule with regard to trading for its own account that is the result of an intermarket sweep order routed in compliance with Rule 600(b)(30)(ii) of SEC Regulation NMS ("ISO") where the customer order is received after the member routed the ISO. Where a member routes an ISO to facilitate a customer order and that customer has consented to not receiving the better prices obtained by the ISO, the member also shall be exempt with respect to any trading for its own account that is the result of the ISO with respect to the consenting customer's order.

.05 Odd Lot and Bona Fide Error Transaction Exceptions. The obligations under this Rule shall not apply to a member's proprietary trade that is (1) to offset a customer order that is in an amount less than a normal unit of trading; or (2) to correct a bona fide error. Members are required to demonstrate and document the basis upon which a transaction meets the bona fide error exception.

.06 Minimum Price Improvement Standards. The minimum amount of price improvement necessary for a member to execute an order on a proprietary basis when holding an unexecuted limit order in that same security, and not be required to execute the held limit order is as follows:

(a) For customer limit orders priced greater than or equal to \$1.00, the minimum amount of price improvement required is \$0.01 for NMS stocks and the lesser of \$0.01 or one-half (1/2) of the current inside spread for OTC equity securities;

(b) For customer limit orders priced greater than or equal to \$0.01 and less than \$1.00, the minimum amount of price improvement required is the lesser of \$0.01 or one-half (1/2) of the current inside spread;

(c) For customer limit orders priced less than \$0.01 but greater than or equal to \$0.001, the minimum amount of price improvement required is the lesser of \$0.001 or one-half (1/2) of the current inside spread;

(d) For customer limit orders priced less than \$0.001 but greater than or equal to \$0.0001, the minimum amount of price improvement required is the lesser of \$0.0001 or one-half (1/2) of the current inside spread;

(e) For customer limit orders priced less than \$0.0001 but greater than or equal to \$0.00001, the minimum amount of price improvement required is the lesser of \$0.00001 or one-half (1/2) of the current inside spread;

(f) For customer limit orders priced less than \$0.00001, the minimum amount of price improvement required is the lesser of \$0.000001 or one-half (1/2) of the current inside spread; and

(g) For customer limit orders priced outside the best inside market, the minimum amount of price improvement required must either meet the requirements set forth above or the member must trade at a price at or inside the best inside market for the security.

For purposes of determining the minimum price improvement standards for customer limit orders in OTC equity securities priced below \$1.00 where there is no published current inside spread, members may calculate a current inside spread by contacting and obtaining priced quotations from at least two unaffiliated dealers and using the highest bid and lowest offer obtained in calculating the current inside spread. Where there is only a one-sided quote in an OTC equity security priced below \$1.00, members may calculate the current inside spread by contacting and obtaining priced quotations from at least two unaffiliated dealers and using the best price obtained on the other side of the quote. Members must document the name of each dealer contacted and the quotations received for purposes of determining the current inside spread.

In addition, if the minimum price improvement standards above would trigger the protection of a pending customer limit order, any better-priced customer limit order(s) must also be protected under this Rule, even if those better-priced limit orders would not be directly triggered under the minimum price improvement standards above.

.07 Order Handling Procedures. A member must make every effort to execute a marketable customer order that it receives fully and promptly. A member that is holding a customer order that is marketable and has not been immediately executed must make every effort to cross such order with any other order received by the member on the other side of the market up to the size of such order at a price that is no less than the best bid and no greater than the best offer at the time that the subsequent order is received by the member and that is consistent with the terms of the orders. In the event that a member is holding multiple orders on both sides of the market that have not been executed, the member must make every effort to cross or otherwise execute such orders in a manner that is reasonable and consistent with the objectives of this Rule and with the terms of the orders. A member can satisfy the crossing requirement by contemporaneously buying from the seller and selling to the buyer at the same price.

.08 Trading Outside Normal Market Hours. Members generally may limit the life of a customer order to the period of normal market hours of 9:30 a.m. to 4:00 p.m. Eastern Time. However, if the customer and member agree to the processing of the customer's order outside normal market hours, the protections of this Rule shall apply to that customer's order(s) at all times the customer order is executable by the member.

5330. Adjustment of Orders

(a) A member holding an open order from a customer or another broker-dealer shall, prior to executing or permitting the order to be executed, reduce, increase, or adjust the price and/or number of shares of such order by an amount equal to the dividend, payment, or distribution on the day that the security is quoted ex-dividend, ex-rights, ex-distribution, or ex-interest, except where a cash dividend or distribution is less than one cent (\$0.01), as follows:

(1) Cash Dividends: Unless marked "Do Not Reduce," open order prices shall be first reduced by the dollar amount of the dividend, and the resulting price will then be rounded down to the next lower minimum quotation variation.

(2) Stock Dividends and Stock Splits: Open order prices shall be determined by first rounding up the dollar value of the stock dividend or split to the next higher minimum quotation variation. The resulting amount shall then be subtracted from the price of the order. Unless marked "Do Not Increase," the size of the order shall be increased by first (A) multiplying the size of the original order by the numerator of the ratio of the dividend or split, then (B) dividing the result by the denominator of the ratio of the dividend or split, then (C) rounding the result to the next lowest share.

(3) Dividends Payable in Either Cash or Securities at the Option of the Stockholder: Open order prices shall be reduced by the dollar value of the cash or securities, whichever is greater. The dollar value of the cash shall be determined using the formula in subparagraph (1) above, while the dollar value of the securities shall be determined using the formula in subparagraph (2) above. If the stockholder opts to receive securities, the size of the order shall be increased pursuant to the formula in subparagraph (2) above.

(4) Combined Cash and Stock Dividends/Split: In the case of a combined cash dividend and stock split/dividend, the cash dividend portion shall be calculated first as per subparagraph (1) above, and the stock portion thereafter pursuant to subparagraph (2) above.

(5) Indeterminate Value: If the value of the distribution cannot be determined, the member shall not adjust, execute, or permit an open order to be executed without reconfirming the order with the customer.

(b) When a pending order involves a security that is the subject of a reverse split, the order (buy or sell) shall be cancelled.

(c) When a pending order involves a security that is the subject of a stock split but is not otherwise required to be adjusted under this Rule, a member shall promptly notify the customer of the stock split.

(d) The term "open order" means an order to buy or an open stop order to sell, including but not limited to "good 'til cancelled," "limit" or "stop limit" orders which remain in effect for a definite or indefinite period until executed, cancelled or expired.

(e) The provisions of paragraph (a) of this Rule shall not apply to:

(1) orders governed by the rules of a registered national securities exchange;

(2) open stop orders to buy;

(3) open sell orders; or

(4) orders for the purchase or sale of securities where the issuer of the securities has not reported a dividend, payment, or distribution pursuant to SEA Rule 10b-17.

5350. Stop Orders

(a) A member may, but is not obligated to, accept a stop order or stop limit order in a security. A "stop order" is an order to buy (or sell) that becomes a market order to buy (or sell) when a transaction occurs at or above (below) the stop price. A "stop limit order" is an order to buy (or sell) that becomes a limit order to buy (or sell) at the limit price when a transaction occurs at or above (below) the stop price.

(b) This Rule shall not apply to a "not held" stop or stop limit order.

••• Supplementary Material: -----

.01 A member may, but is not obligated to, accept an order type that activates as a market or limit order using an event other than a transaction at the stop price as the trigger (e.g., using a quotation at the stop price). In such cases, the order cannot be labeled a "stop order" or a "stop limit order" and must be clearly distinguishable from a "stop order" or a "stop limit order." In addition, the member must disclose to the customer, in paper or electronic form, prior to the time the customer places the order, a description of the order type including the triggering event. A member that permits customers to engage in securities transactions online also must post the required disclosures on the member's website in a clear and conspicuous manner.

.02 To the extent a member routes a customer stop or stop limit order to another broker-dealer or exchange for handling or execution, the member must take reasonable steps to ensure that the order is handled or executed by the other broker-dealer or exchange in accordance with Rule 5350(a). Similarly, a member that routes to another broker-dealer or exchange other order types using an alternative trigger in accordance with Supplementary Material .01 above must take reasonable steps to ensure that the order is handled or executed by the other broker-dealer or exchange in accordance with the terms of the order as communicated to the customer placing the order.
