**FORM X-17A-5 PART IIA
(FOCUS Report)**

GENERAL INSTRUCTIONS

This FOCUS Report (Form X-17A-5) constitutes the basic financial and operational report required of those brokers or dealers subject to any minimum net capital requirement set forth in Rule 15c3-1. The instructions issued from time-to-time must be used in preparing this report and are considered an integral part of this report.

The report shall be filed with the regulatory organization designated as the Examining Authority for the broker or dealer. The name of the broker or dealer and date of report shall be repeated on each sheet of the report submitted. If no response is made to an item or subdivision on thereof it shall constitute a representation that the broker or dealer has nothing to report.

The designated Examining Authority may at any time or from time-to-time in the case of a particular broker or dealer, subject to applicable rules or regulations, prescribe more frequent filing requirements than those prescribed herein.

Foreign currency may be expressed in terms of United States dollars at the current rate of exchange and where carried in conjunction with the United States dollar balances for the same customer may be consolidated with United States dollar balances and the gross or net position reported in its proper classification, provided the foreign currency is not subject to any restriction as to conversion. If the foreign currency position so treated is substantial, some indication of its size shall be given.

Aggregate Indebtedness and Net Capital are defined terms, which must be referred to in the applicable capital requirements rule. Accompanying the FOCUS Report are instructions relating to specific items which must be followed. Any deviations from these specific instructions must be clearly explained in footnotes to the report.

If the broker or dealer is a sole proprietor, all securities owned and all accounts carried for it by other brokers, dealers, or others which contain money balances and/or securities shall be reported, as appropriate.

“Exempted Securities” are those securities defined as such under the provisions of Section 3(a)(12) of the Securities Exchange Act of 1934 other than securities designated for exemption by action of the Commission.

The term “contractual commitments” shall include underwriting, when issued, when-distributed and delayed delivery contracts, the writing or endorsement of puts and calls and combinations thereof, commitments in foreign currencies and spot (cash) commodity contracts, but shall not include future commodity contracts and un-cleared “regular way” purchases and sales of securities. A series of contracts of purchase or sale of the same security conditioned, if at all, only upon issuance may be treated as an individual commitment.

“Securities which are not readily marketable” shall be so designated. The term “securities not readily marketable” includes, but is not limited to: (a) securities for which there is no “ready market”; (b) securities, except “exempted securities,” for which there is no market on a securities exchange or no independent publicly quoted market; (c) securities which cannot be publicly offered or sold because of statutory, regulatory or contractual arrangement or other restrictions.

The term “ready market” shall include a recognized established securities market in which there exists independent bona-fide offers to buy and sell so that a price reasonably related to the last sales price or current bona-fide competitive bid and offer quotations can be determined for a particular security almost instantaneously and where payment will be received in settlement of a sale at such price within a relatively short time conforming to trade custom.

A “ready market” shall also be deemed to exist where such securities have been accepted as collateral for a loan by a bank as defined in Section 3(a)(6) of the Securities Exchange Act of 1934 and where the broker or dealer demonstrates to its Examining Authority that such securities adequately secure such loans.

Indebtedness shall be deemed to be adequately collateralized or secured when the excess of the market value of the collateral over the amount of indebtedness is sufficient to make the loan acceptable as a fully secured loan to banks regularly making secured loans to brokers or dealers.

The term “Examining Authority” of a broker or dealer shall mean the national securities exchange or national securities association of which the broker or dealer is a member or, if the broker or dealer is a member of more than one such self-regulatory organization, the organization designated by the Commission as the Examining Authority for such broker or dealer, or if the broker or dealer is not a member of any such self-regulatory organization, the Regional Office of the Commission where such broker or dealer has its principal place of business.

The term “non-customer” is defined as set forth in Rule 15c3-1(c)(7).

**Persons who are to respond to the collection of information
contained in this form are not required to respond unless the
form displays a currently valid OMB control number.**

In order to expedite the preparation of the financial data called for in the report, fractions *may be* dropped from the prices in determining *any* or *all-long* valuations. (No price should be used which is higher than the actual market price, i.e., 17 7/8 use 17 but not 18. However, if fractions are not used for *any* or *all short* valuations use the higher price, i.e., 18 1/8 use 18 but not 17. Money amounts should be expressed in whole dollars.

Financial statements shall be prepared in conformity with generally accepted accounting principles (except where otherwise requested) applied on a basis consistent with that of the preceding report and shall include, in the basic statement or accompanying footnotes, all informative disclosures necessary to make the statement a clear expression of the organization's financial and operational condition. The broker or dealer must report all data after proper accruals have been made for income and expense not recorded in the books of account and adequate reserves have been provided for deficits in customer or broker accounts, unrecorded liabilities, security differences, dividends and similar items.

The amount of terms (including commitment fees and the conditions under which lines may be withdrawn) of unused lines of credit for short-term financing shall be disclosed, if significant, in notes to the financial statements.

Retain for at least 3 years a copy of each FOCUS Report filed, along with all the working papers and memoranda used in the preparation of each FOCUS Report. (Refer to Rule 17a-4.) Working papers, etc. must be made available for review by a representative of the designated Examining Authority.

Filing Requirements for Part IIA

Part IIA shall be filed quarterly by firms not clearing or carrying customer accounts, and those firms which are subject to the requirements of Rule 15c3-1(a)(2) and (3). Part IIA shall be filed monthly by such of these firms which receive written notice pursuant to Rule 17a-5(a)(2)(iv) that they have exceeded parameters set by the self-regulators.

The general terms and nature of such repayment provisions in (b) and withdrawal or usage restrictions in (c) shall be described in a note referred to herein. In cases where compensating balance arrangements exist but are not agreements which restrict the use of cash amounts shown on the balance sheet, describe these arrangements and the amounts involved, if determinable, in the notes to the financial statements. Compensating balances that are maintained under an agreement to assure future credit availability shall be separately disclosed in the notes to the financial statements along with the amount and terms of such agreement.

Bank overdrafts are not to be netted against balances in unrelated bank depositories. They shall be included in "Bank loans payable" as "A. I. Liabilities."

The haircuts on the long and/or short securities in partly secured accounts are included in the Computation of Net Capital below "Haircuts on securities."

Securities and spot commodities owned, at market value

Security and spot (cash) commodity valuations as well as losses and gains in future commodity contracts shall be based upon market prices as at the date of the statement of financial condition; fractions and accrued interest with respect to securities may be omitted except where such procedure in the case of short positions would have a material effect on Net Capital.

For the purpose of this report securities sold as principal: under a repurchase agreement shall be deemed to be securities owned by the broker or dealer and the market value shall be included in this section. The proceeds of sale shall be included as a credit in the statement of financial condition under bank loans payable – Non-A. I. Liabilities.

The other participant(s)' interest in the joint account shall be treated as a non-customer's account and included as a receivable from or payable to non-customer as applicable. A margin deposit by the other participant shall be included when determining the other participant(s)' interest. If the other participant(s)' interest is in deficit, then the same treatment given to all partly secured or unsecured non-customer accounts in the Computation of Net Capital shall apply. If the other participant(s)' equity is not sufficient to meet margin requirements and no exemption has been granted by the designated Examining Authority, the amount of the cash margin deficiency shall be included as a charge in the determination of Net Capital. The other participant(s)' interest in realized gains and losses and miscellaneous income and expense items related to the joint account are not to be reflected in the reporting broker or dealer's profit and loss accounts but should be reflected as due to or due from the other participant(s).
- b) Accounts carried by others – For those accounts carried by others, the reporting broker or dealer will include his portion of the market value of marketable securities and spot commodities in the appropriate item. A margin deposit by the reporting broker or dealer is an allowable asset in the computation of Net Capital. - c) Joint foreign and domestic arbitrage accounts in which the reporting broker or dealer has an interest – Money balances and securities positions carried by the reporting broker or dealer and by a participant shall be combined and considered on a net basis (offsetting positions in the same security shall be netted). Adjustments may be made where different clearance dates apply to transactions made on the same day in the same security. The reporting broker's or dealer's portion of any net debit or credit balance shall be considered in determining losses or gains and in marking positions to the market. The reporting broker or dealer's interest in any long and/or short security positions should be at market value. However, consideration should be given to setting up an appropriate reserve for any deficit in the participant's interest. The participant's share of any credit balances carried on the respondent's books for these accounts is to be included in Aggregate Indebtedness.
- d) If the joint account nets a credit balance or is a free credit balance, include in "Payable to non-customers" (A. I. See Rule 15c3-1, Appendix A, paragraph (a) for the definition of listed and unlisted options.

Securities and/or other investments not readily marketable, at estimated fair value

See the general instructions and Rule 15c3-1(c)(2)(iv) (K-L), (c)(2)(vii) and (c)(11).

The amount reported as an allowable asset represents that portion which would otherwise be considered non-allowable except for the fact that it adequately secures indebtedness. (See Rule 15c3-1(c)(2)(iv) and (c)(2)(viii)).

Secured demand notes – satisfactory subordination agreements

Subordination agreements must conform with the minimum requirements of Rule 15c3-1 Appendix D in order that the respective amounts may be included in Net Capital (satisfactory subordination agreements). Funds on deposit in a "Segregated Trust Account" in accordance with Rule 27d-1 under the Investment Company Act of 1940 shall be considered as non-allowable to the extent that the amount of deposit in such Segregated Trust Account exceeds the amount of liability reserves established and maintained for refunds of charges required by Section 27(d) and 27(f) of The Investment Company Act of 1940. See Rule 15c3-1(c)(2)(iv)(E).

COMPUTATION OF NET CAPITAL AND AGGREGATE INDEBTEDNESS

Ownership equity not allowable for Net Capital

Deduct any capital accounts included as part of ownership equity on the Statement of Financial Condition which are not allowable in the determination of Net Capital.

Liabilities subordinated to claims of general creditors allowable in computation of Net Capital

Appendix D to Rule 15c3-1 sets forth minimum and nonexclusive requirements for satisfactory subordination agreements. The self-regulatory organization which has been designated as the Examining Authority for the broker or dealer may require, or the broker or dealer may include, such additional provisions as they deem necessary or appropriate to the extent such provisions are not inconsistent with the provisions of Rule 15c3-1.

Secured demand note collateral accounts

Securities contained in collateral not accounts shall be considered to have no value unless in bearer form, or registered in the name of the broker or dealer or the name of its nominee or custodian.

The collateral contained in each secured demand note collateral account shall relate only to the specific demand note that it collateralizes. The excess collateral value in one account shall not be applied to the deficiency in another account.

Two or more demand notes of the same individual should not be combined.

Only cash and securities which are fully paid for and which may be publicly offered or sold without registration under the Securities Act of 1933, and the offer, sale and transfer of which are not otherwise restricted, may be pledged as collateral to secure a secured demand note.

Other (deductions) or Credits

Sole proprietors (individual members) who are not associated with a broker or dealer who is a member of a national exchange shall record here:

1. The total of any liabilities incurred in the course of business which are not reported in the Statement of Financial Condition and which would have a material effect on Net Capital.
2. The excess of liabilities which have not been incurred in the course of business as a broker or dealer over assets not used in the business.

Secured demand note deficiency

If the value of securities and cash collateralizing a secured demand note contributed for purposes of capital under Rule 15c3-1 after application of the deductions specified in subparagraph (c)(2)(vi) of Rule 15c3-1 is less than the unpaid principal amount of the secured demand note, such deficiency shall be deducted.

Haircuts

Undue concentration – Basic Net Capital Computation under Rule 15c3-1.

In the case of money market instruments or securities of a single class or series of an issuer, including any option written, endorsed or held to purchase or sell securities of such a single class or series of an issuer (other than “exempted securities”), which are long or short in the proprietary, or other accounts of a broker or dealer for more than 11 business days, and which have a market value of more than 10% of the “net capital” of a broker or dealer before the application of subparagraph (c)(2)(vi) or Appendix A to Rule 15c3-1, there shall be an additional deduction from net worth equal to 50% of the percentage deductions otherwise provided by subparagraph (c)(2)(vi) or Appendix A to Rule 15c3-1 on that portion of the securities position in excess of 10% of the “Net Capital” of the broker or dealer before the application of subparagraph (c)(2)(vi) or Appendix A to Rule 15c3-1. (See subparagraph (c)(2)(vi)(M) of Rule 15c3-1 for further provisions).

Contractual commitments

Deduct, in the case of a broker or dealer who has open contractual commitments (other than option positions treated in Appendix A to Rule 15c3-1), the respective deductions as specified in subparagraph (c)(2)(vi) or Appendix B to Rule 15c3-1 (in the case of a broker or dealer electing to operate pursuant to paragraph (f) of Rule 15c3-1, the percentage deduction for contractual commitments in securities described in subparagraph (f)(3)(ii) shall be 30%) from the value (which shall be the market value whenever there is a market) of each net long and each net short position contemplated by any existing contractual commitment in the proprietary and other accounts of the broker or dealer. (See subparagraph (c)(2)(viii) of Rule 15c3-1 for further provisions).

Firm security and commodity accounts

Deduct the percentages specified in subdivisions (A) to (M) of subparagraph (c)(2)(vi) or the deductions prescribed for securities positions set forth in Appendix A to Rule 15c3-1 or, where appropriate, paragraph (f) of Rule 15c3-1 of the market values of all securities, money market instruments or options in the proprietary and other accounts of the broker or dealer. The capital charge (haircut) on future commodity contracts is 30% of the market value of all “long” and all “short” future contracts other than those contracts representing spreads and straddles in the same commodity and those contracts offsetting or hedging any “spot” commodity positions in proprietary or other accounts of the broker or dealer.

Straddle or Spread

These terms mean the same thing, but in practice the grain trade uses the term “spread”, whereas the other commodity interests use the term “straddle.” A spread may be defined as the purchase of one future against the sale of another future of the same commodity or a related commodity in the same or different market. The Commodity Futures Trading Commission Act defines spreading only in terms of the same commodity, whereas exchanges define it to also include different but related commodities.

Deduct 30% of the market value of “spot” commodities long or short in the proprietary and other accounts of the broker or dealer to the extent that such positions are not hedged by future commodity contracts or forward spot commodity contracts in the same . 10% of the market value shall be deducted on fully hedged positions.

In determining gross profit (loss), any unrealized loss on securities unsold at the time of the underwriting account was closed shall be considered as a deduction from the proceeds of securities sold.

Employee compensation and employment costs of persons working in an “underwriting department” and other related expenses of such department shall be treated as indicated expenses and *not* deducted in determining gross profit (loss).
